

Larisch Starting from Scratch

2019

Linda Larisch Instructor

Supply Lists for:

BASIC DRAWING 101 and MOVING ON- DRAWING 102

- **A pad of drawing paper** - 11"x14" or larger, a pad of sturdy, white paper at least **80lb**, medium surface
- **Pencils** – I recommend getting a set of drawing (or drafting) pencils that contain a variety of both H (hard) and B (soft) pencils. Staedtler is a good basic brand and not too expensive to get you started. I suggest a set of 20 pencils (about \$30. on Amazon) or the smaller set of 12 in varying degrees hard and soft. I will have extra pencils available for you to try depending on how large the class. I suggest not to get student grade pencils. They are cheaper but not as satisfying as professional grade.
- **A soft rubber eraser**- usually pink or white.
- **Eraser stick**- an eraser made like a pencil so it can be sharpened to a point, usually the eraser is pink.
- **Kneaded eraser**
- **Fine point eraser (optional)**
- **Blunts** (or tortillions)- they usually come in a pack containing several sizes for blending.
- **Pencil sharpener**- it is important to be able to have pencils well sharpened with a long point. A hand held, two hole, long point sharpener works well. Electric or battery run sharpeners are good if they give a long point. I will also have an electric pencil sharpener available to use in class.
- **Brush**- wide, soft bristled, to brush eraser debris off the paper. A cheap paint brush will work.
