

The Venice Art Center Updated Safety Protocols

Updated 6/21/21

The Venice Art Center Board of Directors and Executive Director are aware of the state of Florida's modifications to mask guidelines and the CDC advice for masks for fully vaccinated individuals. At this time, we are maintaining the health & safety measures below.

Masks are no longer required for fully vaccinated individuals.

Non-vaccinated individuals should still wear a mask at all times while inside the Venice Art Center. This includes all visitors, staff, instructors and volunteers.

We are evaluating the latest CDC guidance on a monthly basis. This is an unprecedented situation that we are all facing together, and we thank you for your support and understanding.
